

## **I-205 Light Rail Project Interesting Facts**

As of September 2007, the I-205 Light Rail project has moved:

- 6,500 cubic yards of concrete, which equals about 800 concrete trucks.
- 55,000 tons of rock placed which equals about 2,700 dump trucks.
- 175,000 cubic yards excavated which equals about 15,000 dump trucks.
- 40,000 square feet of retaining wall installed.
- 8,500 linear feet of storm water line installed.

There are approximately 140 SCC direct employees and about 20 subcontract employees working at any given time, which is probably peak. There have been about 80,000 hours of labor by SCC employees alone to date.
