

## Portland Mall Construction Notice for 5th and 6th Avenues

### Light Rail Construction

All major light rail construction is complete on 5th and 6th avenues.

### Station finishing and art installation

Components of the new bus and MAX shelters are appearing throughout the Mall. The new shelters will offer passengers better visibility, better lighting and real-time arrival information displays. Benches have been furnished in the South and Central malls. Crews are adding Transit Tracker screens and will soon erect windscreens. Shelter roofs are being added to bus stops first, then the light rail stations. Art installations also continue along the Mall and bike oases will be completed in September.

### Morrison & Yamhill Brick Intersections

Brick intersection repairs along Morrison and Yamhill streets will continue through November. Work includes removing, replacing and repairing subgrade and mortar set pavers. The work takes place Monday through Saturday from 7 a.m. to 11 p.m. Some parking temporarily will be removed. Morrison and Yamhill will be closed around the specific areas under construction but local access will be provided. At least one lane on cross streets will remain open. Flaggers will direct traffic as needed. These repairs are funded by the American Recovery and Reinvestment Act.

**Please note:** With the Portland Mall Light Rail Project coming to completion, this is the last construction update. Thank you for your interest in the progress of the project.
